

# SMETA Corrective Action Plan Report (CAPR)

Version 6.1

# **Audit Content:**

- (1) A SMETA audit was conducted which included some or all of Labour Standards, Health & Safety, Environment and Business Ethics. The SMETA Best Practice Version 6.1 (March 2019) was applied. The scope of workers included all types at the site e.g. direct employees, agency workers, workers employed by service providers and workers provided by other contractors. Any deviations from the SMETA Methodology are stated (with reasons for deviation) in the SMETA Declaration.
- (2) The audit scope was against the following reference documents

# 2-Pillar SMETA Audit

- ETI Base Code
- SMETA Additions
  - Universal rights covering UNGP
  - Management systems and code implementation,
  - Responsible Recruitment
  - Entitlement to Work & Immigration,
  - Sub-Contracting and Home working,

# **4-Pillar SMETA**

- 2-Pillar requirements plus
- Additional Pillar assessment of Environment
- Additional Pillar assessment of Business Ethics
- The Customer's Supplier Code (Appendix 1)
- (3) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (4) Any Non-Compliance against customer code shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

# Guidance

The Corrective Action Plan Report summarises the site audit findings and a corrective, and preventative action plan that both the auditor and the site manager believe is reasonable to ensure conformity with the ETI Base Code, Local Laws and additional audited requirements. After the initial audit, the form is used to rerecord actions taken and to categorise the status of the non-compliances.

N.B. observations and good practice examples should be pointed out at the closing meeting as well as discussing non-compliances and corrective actions.

To ensure that good practice examples are highlighted to the supplier and to give a more 'balanced' audit a section to record these has been provided on the CAPR document (see following pages) which will remain with the supplier. They will be further confirmed on receipt of the audit report.

## Root cause (see column 4)

Root cause refers to the specific procedure or lack of procedure which caused the issue to arise. Before a corrective action can sustainably rectify the situation, it is important to find out the real cause of the noncompliance and whether a system change is necessary to ensure the issue will not arise again in the future.

See SMETA BPG Chapter 7 'Audit Execution' for more explanation of "root cause".

#### **Next Steps:**

- 1. The site shall request, via Sedex, that the audit body upload the audit report, non-compliances, observations and good examples. If you have not already received instructions on how to do this then please visit the web site www.sedexglobal.com.
- 2. Sites shall action its non-compliances and document its progress via Sedex.
- 3. Once the site has effectively progressed through its actions then it shall request via Sedex that the audit body verify its actions. Please visit www.sedexglobal.com web site for information on how to do this.
- 4. The audit body shall verify corrective actions taken by the site by either a "Desk-Top" review process via Sedex or by Follow-up Audit (see point 5).
- 5. Some non-compliances that cannot be closed off by "Desk-Top" review may need to be closed off via a "1 Day Follow Up Audit" charged at normal fee rates. If this is the case, then the site will be notified after its submission of documentary evidence relating to that non-compliance. Any followup audit must take place within twelve months of the initial audit and the information from the initial audit must be available for sign off of corrective action.
- 6. For changes to wages and hours to be correctly verified it will normally require a follow up site visit. Auditors will generally require to see a minimum of two months wages and hours records, showing new rates in order to confirm changes (note some clients may ask for a longer period, if in doubt please check with the client).

# **Local Law Issues**

Issue	Description
§1	General Rules of Design on Health and Safety of Production Facility (GB 5083-1999) 6.1.4 If the kinetic energy or potential energy of the movable parts (including their loads) may cause danger, it must be equipped with speed limit, anti-falling or anti-reversing devices
§2	Labor Law of the People's Republic of China (2018 Amendment) Article 72, The sources of social insurance funds shall be determined according to the categories of insurance, and an overall pooling of insurance funds from the society shall be introduced step by step. The employing unit and laborers must participate in social insurance and pay social insurance premiums in accordance with the law. Article 73, Laborers shall, in accordance with the law, enjoy social insurance benefits under the following circumstances: 1. Retirement; 2. Illness or injury; 3. Disability caused by work-related injury or occupational disease; 4. Unemployment; and 5. Child-bearing.
§3	Labor Law of the People's Republic of China (2018 Amendment), Article 41 The employing unit may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty six hours.

Disability caused by work-related injury or occupational disease; 4. Unemployment; and 5. Child-bearing.					
ETI code	5.1 - Wages and benefits paid for a standard working week meet, at a minimum, national legal standards or industry benchmark standards, whichever is higher. In any event wages should always be enough to meet basic needs and to provide some discretionary income.					
Explanation to the non compliance	Not all employees were covered by social insurance. There were 32 production workers, with 12 reached at retirement age and no newly hired worker within one month. Thus, 20 production workers should be covered by five types of social insurance. However, only 5 out of 20 eligible workers (25% of eligible workers) were covered by five types of social insurance. In addition, another 27 workers were covered by commercial injury insurance, which was valid since Feb. 11, 2023 to Feb. 10, 2024.					
	不是所有员工都参加了社会保险。工厂有32名生产工人 ,其中12人达到了退休年龄,没有新入职一个月内的员 工。因此,20名生产工人应当参加五项社会保险。但是 20名应参保人员中仅有5人(占应参保人员的25%)参加 了五项社会保险。此外,另有27名工人参加了商业意外

Local law issue	Labor Law of the People's Republic of China (2018 Amendment), Article 41 The employing unit may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty six hours.					
ETI code	6.1 - Working hours must comply with national laws, collective agreements, and the provisions of 6.2 to 6.6 below, whichever affords the greater protection for workers. Sub–clauses 6.2 to 6.6 are based on international labour standards.					
Explanation to the non compliance	The facility provided time records since Mar. 2022 to the audit day. There was no peak production season. Thus the following months were selected as primary samples Feb. 2023, Dec. and Oct. 2022. The monthly overtime hours of all 10 sampled workers from all processes exceeded legal limit in the sampled months. The maximum monthly overtime hours reached at 48 hours in Feb. 2023, 58 hours in Dec. 2022 and 46 hours in Oct. 2022.	, ):				
	工厂提供了2022年3月到审核当天的考勤。工厂没有生产旺季。因此如下月份被作为首要抽样月份:2023年2月;2022年12月和10月。来自全工序的所有10名样本员工的月加班在抽样月份中均超过了法律要求。最大的月加班分别达到了2023年2月48小时、2022年12月58小时、2022年10月份46小时。

# **SMETA Declaration**

I declare that the audit underpinning the following report was conducted in accordance with SMETA Best Practice Guidance and SMETA Measurement Criteria.

- (1) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (2) Any Non-Compliance against customer code alone shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

# **Guidance on Root Cause**

## **Explanation of the Root Cause Column**

If a non-compliance is to be rectified by a corrective action which will also prevent the non-compliance re-occurring, it is necessary to consider whether a system change is required.

Understanding the root cause of the non-compliance is essential if a site is to prevent the issue reoccurring.

The root cause refers to the specific activity/ procedure or lack of activity /procedure which caused the non-compliance to arise. Before a corrective action can rectify the situation, it is important to find out the real cause of the non-compliance and whether a system change is necessary to ensure the issue will not arise again in the future.

Since this is a new addition, it is not a mandatory requirement to complete this column at this time. We hope to encourage auditors and sites to think about Root Causes and where they are able to agree, this column may be used to describe their discussion.

# Some examples of finding a "root cause"

#### Example 1

Where excessive hours have been noted the real reason for these needs to be understood, whether due to production planning, bottle necks in the operation, insufficient training of operators, delays in receiving trims, etc.

#### Example 2

A non-compliance may be found where workers are not using PPE that has been provided to them. This could be the result of insufficient training for workers to understand the need for its use; a lack of follow-up by supervisors aligned to a proper set of factory rules or the fact that workers feel their productivity (and thus potential earnings) is affected by use of items such as metal gloves.

#### Example 3

A site uses fines to control unacceptable behaviour of workers.

International standards (and often local laws) may require that workers should not be fined for disciplinary reasons.

It may be difficult to stop fines immediately as the site rules may have been in place for some time, but to prevent the non-compliance re- occurring it will be necessary to make a system change.

The symptom is fines, but the root cause is a management system which may break the law. To prevent the problem re-occurring it will be necessary to make a system change for example the site could consider a system which rewards for good behaviour

Only by understanding the underlying cause can effective corrective actions be taken to ensure continuous compliance.

The site is encouraged to complete this section so as to indicate their understanding of the issues raised and the actions to be taken.
